www.wiesbaden.de/stadtmuseum

The Wiesbaden city museum found its new home in the market cellar — centrally located in the heart of the state capital, Wiesbaden. Visitors of all sizes have the opportunity to discover the history of Wiesbaden on approximately 1,300 square metres at *sam* — *Stadtmuseum am Markt*. *sam* is presenting the *Lieblingsstücke* (Favourite Pieces) exhibition, depicting the history of the city of Wiesbaden, as well as the children's exhibition, *Die spinnen, die Mattiaker!* (*Those Mattiaci are crazy!*), and still offers plenty of space for special exhibitions plus a multifunctional area. In addition, *sam* is presenting an exhaustive museum educational programme that accompanies child and adult groups, as well as individual visitors, during their museum visits.

### EXHIBITION FAVOURITE PIECES

Based on the history of the city, the *Wiesbadens Lieblingsstücke* exhibition at *sam* — *Stadtmuseum am Markt* offers visitors a unique opportunity to get an overview of the Wiesbaden story, from pre- and early history to the current day. The topics “Wiesbaden as a spa resort and city of water” and “Wiesbaden as a political centre” were the focus during selection of the exhibit pieces.

### OUR TREASURE CHAMBER

The SNA — the *Sammlung Nassauischer Altertümer* (Collection of Nassau Antiquities) — is *sam*'s most valuable treasure. A specially designed room inside the market cellar will soon offer the opportunity to present extraordinary pieces from the SNA, one of the region's most distinguished historic collections, in quarterly rotation. Here, the collection itself is the topic of the exhibition.

### CHILDREN'S EXHIBITION DIE SPINNEN, DIE MATTIAKER! (THOSE MATTIACI ARE CRAZY!)

What child would not want to play with Playmobil figures in historic playgrounds? The children's exhibition *Die spinnen, die Mattiaker!* (*Those Mattiaci are crazy!*) makes this dream come true by resurrecting Roman Wiesbaden. With Playmobil figures that the kindergarten- and elementary-school-aged children can dress up, the young explorers embark on a discovery tour in Roman Wiesbaden to explore this period of the city's history in a playful manner.

### THE MARKET CELLAR

The market cellar was built in the year 1900 as a vaulted cellar with a square layout and a floor area of approximately 1,300 square metres. The suppliers of the Wiesbaden Market, which took place on the area above the cellar, stored their wares here. The building was refurbished and converted into a market hall in 1999, and serves the Wiesbaden Museum as a new exhibition area as of September 2016.
